

May 16, 1973

this Resolution. So I would concur that we do not recognize the motion from Senator Schmit at this time and proceed on this Resolution and then go back to Senator Carpenter's suggestion.

PRESIDENT: All right. Now is there any further discussion of the Resolution. Stand by, Senator Burbach, I think you can close. Ok. Now, Senator Burbach is closing on his Resolution. Senator Burbach closing.

SENATOR BURBACH: Mr. President and members of the Legislature, as I indicated earlier this is not a cure-all for all the problems. It is only merely suggestive. It is even suggestive to the Governor, we're urging him, however, in more.. in stronger words that he does issue a proclamation and make the facts known and make certain requests under whatever authority he may have to do the things that would conserve gasoline, not only for agriculture, not only for business, but for private citizens. They recognize that they, also, recognize the problem that they curtail certain of their operations, certain of their activities. Recognizing the importance of a properly adjusted furnace, carburetor, or properly insulated home. So I think this is all I need to say. We are not specific in any item. We are not making a request to reduce speed limits of 40, 50, 60 miles an hour. We are not asking for anything..we are covering..not any one specific item, only suggestion, and, of course, the urging of the Governor to recognize the problem and I move for the adoption of the Resolution.

PRESIDENT: The question is shall Legislative Resolution 84 be adopted. All those in favor vote aye. All those opposed vote no. Voting on the adoption of Legislative Resolution 84. Voting on the adoption of the Resolution. Have you all voted? Voting on the adoption of the Resolution. Once again, now, have you all voted? The clerk will record.

CLERK: 39 ayes, 0 nays, 7 not voting on the motion to suspend the Rules and adopt LR 84.

PRESIDENT: The Resolution is adopted. Now, we had a motion from Senator Carpenter on the creation of a Committee and..Senator Syas.

SENATOR SYAS: I am not against his creation of a Committee but I just want to ask the chair a question.

PRESIDENT: Yes sir.

SENATOR SYAS: So we won't lose a day by getting on to.. off the highway here. We have some things on Select File. Are they ready to be taken up? I don't want to work an extra day down here just because we got on to some other issues and didn't take care of what we are here to really take care of. Are they ready to take up.

CLERK: They have to be read into the record and then they can then be considered. Yes.

SENATOR SYAS: Don't you think we should do that now.

CLERK: Well, whenever you want to, yes.

SENATOR SYAS: Well, he said he would only take five minutes for his motion, so let's let him take it and then let's get going here. It's ten minutes to eleven.

PRESIDENT: All right. Take the Carpenter motion.

CLERK: Mr. President, I move--read.

SENATOR CARPENTER: Mr. President, I think we ought to amend it. Instead after adjournment, as I have checked with the Assistant Clerk, we will not be here Friday May the 5th
